Union Town Center Discussion

City Administrator David Plummer explained that after a recent virtual meeting he had with MKSK along with Communications Director/Assistant CAO Amy Safran and Jenna LeCount Community Development Services Director with Boone County Planning Commission the realization was made that there was not enough specific concept ideas for moving forward. Administrator Plummer suggested that a theme be created for the area that is being developed. He gave examples of five categories that should be considered when developing the area.

1. Safe and Enjoyable
2. Timeless and Enduring
3. Memorable and Locally Relevant
4. Responses to Changing Seasons
5. Celebrating our Community Identity

Communications Director/Assistant CAO discussed the possibilities of amenities that could be implemented at the park such as trails and greenspace.

Mayor Solomon asked for comments and suggestions from everyone in attendance. The majority of the comments were to have sectioned off multiple use areas for people of different generations to use. After a great deal of discussion the determination was made to have MKSK continue with the concept designs of the Union Town Center development. The determination was made that the area should be completed in phases with the assistance of a Park Engineer. The suggestion was made to establish a committee of community residents that would meet on

a regular basis, this will not only engage the community but also build excitement for the project. The goal is to make the development something that is unique to the Northern Kentucky area and gives people a reason to want to visit and move to the City of Union.
